DESCRIPTION

Currently, an unaccredited school district lapses on June 30 after two full school years of unaccredited status. This proposed legislation adds language that permits a provisionally accredited district to lapse if it has been unaccredited in the past five school years and the State Board of Education finds that the district is not making adequate progress toward full accreditation. The proposal adds a fourth permitted course of action for the State Board of Education upon the lapse of a school district: the board may continue the operation of the district under its existing governance structure according to conditions established by the board. The proposal also revises the purpose of the hearing required to be held by the Department of Elementary and Secondary Education after the announcement that a district has become unaccredited.

This legislation is not federally mandated, would not duplicate any other program and would not require additional capital improvements or rental space.
